

UNI-BBB2

Connection Box with Wall/Pole Mount Adaptor

Overview

The UNI-BBB2 is a cast aluminum adapter that serves as an electrical connection box for use with the following Sony outdoor minidome cameras: SNC-DH160/SNC-DH180; SNC-DH260/SNC-DH280; SNC-EM602RC/SNC-EM632RC; SNC-VM602R/SNC-VM632R.

The connection box can be used for mounting onto a flat wall, or on a pole (3 to 6 inches diameter) using the adapter bracket and supplied stainless steel straps.

Two conduit holes are suitable for a 3/4 inch (27mm) conduit fitting on the back and bottom of the adapter to facilitate wiring connections. Knockouts allow mating to a standard double gang electrical box.

Cast aluminium construction with powdercoat finish. Suitable for outdoor or indoor use. Mounting hardware for compatible cameras (as listed above) included.

Specifications

Architecture / Engineering Specifications

Size (H x W x D)	3.32 x 7.29 x 7.28 inches (84.4 x 185.2 x 184.9 mm)
------------------	---
