Overview

Flexibility and control for the PWS-4500, HKCU-REC55 and HKCU-REC50

The PWA-RCT1 is a software for running applications that provides useful method for controlling multiple units of the PWS-4500 4K/HD Live Production Server, and HKCU-REC55/REC50 CCU Recording Option* – triggering rec/stop/play/file transfer from a single PC with an intuitively operational GUI.

The PWA-RCT1 adds increased operational flexibility to both the PWS-4500 and HKCU-REC55/REC50, so that it can be offered as an easy-to-use multi-port 4K/HD production recorder for a wide variety of production applications.

* PWAL-RCT50 is required to use HKCU-REC55/REC50.

Features Simple and intuitive control for multiple channel recording

Simple and intuitive operation for multiple channel recording with both PWS-4500 and HKCU REC55/REC50 simultaneously using one application.

Clip management and file transfer functions

The software offers clip list management and file transfers to external media or network storage.
