VPL-HW65ES

Full HD SXRD Home Cinema Projector with 1800 lumens brightness and white finish (colour availability may vary by country)

Overview

True Home Cinema is closer than you think

Create a spectacular cinematic experience in your own home. Available in a sleek, contemporary black or white finish that makes a stylish addition to any interior, the VPL-HW65ES Home Cinema projector lets you enjoy your favourite movies at their best in 2D or 3D.

Advanced SXRD panel technology delivers fabulous Full HD images with impressive 1800 lumens brightness and high 120,000:1 contrast ratio that always look clear and sharp, even in daylit living rooms.

Light, compact and easy to set up, the VPL-HW65ES fits neatly into any home theatre or living room, with quiet fan noise that won't disturb the show and a front-facing exhaust port for extra installation flexibility. The projector's long-lasting lamp is rated for an extra-generous 6,000 hours operation (in Low Mode), for fewer interruptions and reduced maintenance costs.

Features

Spectacular Full HD pictures with Reality CreationAdvanced SXRD panel technology is teamed with Reality Creation

- Sony's Super Resolution processing technology that refines subtle details, colours and textures. You'll see the difference with crisp, sharp Full HD pictures that take you closer than ever to the original 1080p source.

High brightness and contrast

With an impressive 1,800 lumens brightness and high 120,000:1 dynamic contrast range, Full HD images are clear and with bright highlights and rich, deep blacks – even in well-lit rooms.

White finish

The projector is also available in a stunning new white finish that looks beautiful in any contemporary or traditional décor.

Smooth, fluid on-screen action

Coupled with the panel's super-fast response rate, Motionflow technology means you'll see every detail with minimal blur - no matter how fast the action.

Long-lasting lamp

6000 hour rated lamp operating life (in Low mode) means simpler maintenance, with fewer lamp swaps and reduced running costs.

Flexible home installation with wide zoom and shift lens

The manual zoom lens with a 1.6x zoom ratio and wide lens shift range gives greater installation flexibility in any room size, even with high ceilings.

Front-facing fan

With the fan exhaust positioned at the front of the projector, you don't need to worry about wall clearance and room for air inhale/exhaust when installing. This helps maximise throw distance, for the biggest possible projected images.

Home automation with IP control

The VPL-HW65ES is compatible with a wide range of home automation systems via an RJ45(IP), RS-232C, TRIGGER and IR IN interfaces.

Industry standard RF 3D compatible

The projector's built-in RF transmitter synchronises with any RF 3D glasses for wider coverage and greater stability, so there's no need for an external transmitter.

USB updates

You're always up to date with the latest features and firmware updates via the projector's USB port.
