

FWD-85X95K

85" Bravia 4K HDR Professional Displays

Overview

Take your business to a whole new level with the FWD-85X95K Professional BRAVIA display that unites exquisite pictures and sound in our finest 4K HDR professional display, and a premium flush design that keeps your audience focused on your message without distractions.

Optimised for professional applications, the FWD-85X95K BRAVIA is powered by the ingenious Cognitive Processor XR™ that takes vision and sound to a whole new level by boosting colour, contrast, clarity, and motion. Enjoy exceptional contrast from a 4K Mini LED screen that delivers dynamic range like never before. See incredibly deep blacks, dazzling lights and beautifully natural mid tones.

For even greater peace of mind there's the added reassurance of our 3 Years warranty with advanced exchange handled by local partner, on premise where possible. You can also choose to extend your support for an additional 2 years.

Features

4K Image Resolution (3840 x 2160 pixels)

4K offers four times the detail of Full HD, with a resolution of over 8 million pixels bringing extra clarity to corporate display, education, and digital signage applications.

Beautifully Realistic 4K HDR Images

Our revolutionary cognitive Processor XR™ HDR remaster, 4K XR Super Resolution, XR Contrast booster and more, making you appreciate the difference with enhanced depth, more realistic textures, and pure, natural colours at higher brightness levels.

Unique dynamic range with the 4K Mini LED screen

Our XR Backlight Master Drive utilises a unique local dimming algorithm to divide the tiny and high-dense Mini LED backlight into small LED units, precisely and independently controlling each unit, focusing light for maximum brightness, and displaying an unprecedented dynamic range with scenes full of incredibly deep blacks, dazzling lights and natural mid tones.

See Finer Detail

XR 4K Upscaling takes 2K pictures closer to true 4K quality. Images are sharpened and refined in real time, revealing extra detail from lower-resolution picture sources.

Clearer, Brighter Fast-moving Scenes

Our Cognitive Processor XR™ with XR Motion Clarity™ analyses motion across several frames to ensure action stays smooth, bright, and clear.

Wider Colour with XR TRILUMINOS Pro™

Powered by our Cognitive Processor XR™, XR TRILUMINOS Pro™ enables X95K to access over a billion colours and reproduce each one with the subtle differences seen in the real world. Together with our wide colour gamut panel and human-centric processor, it can detect colour from saturation, hue, and brightness to deliver natural shades in every detail.

Flush Surface, No Distractions

BRAVIA Professional Displays feature a slim, flush design with discrete stand and thin bezel that keeps you focused on what's important - the picture.

Google Chromecast and Apple Airplay

With Google Chromecast built-in, and Apple Airplay, easily mirror your content and enjoy it super-sized on your BRAVIA.

Do More with Android TV

Discover a world of apps and online content powered by Android TV. Use Voice Search to find content easily without typing. Easily share content with Google Cast.

Flexible Mounting and Installation

BRAVIA Professional Displays offer flexible mounting options with VESA standard mounting for easy integration into a wide range of environments.

Greater peace of mind

There's the added reassurance of our 3 Years warranty with advanced exchange handled by local partner, on premise where possible. You can also choose to extend your support for an additional 2 years.
