

PES-C10

Pod PC software

Overview

This PES-C10 Pod PC software provides the same friendly, intuitive user interface of the Vision Exchange main unit for ease of use throughout the classroom or meeting spaces.

This software enables the pod sharing function with PEQ-C100 and PEQ-C130 Vision Exchange main units. Please note that separate PES-C10 software is required for the pod PC on each pod table.

Features

Streaming Output (optional license)

Optional streaming output license can be added to the main system to stream the main view to a central server for lecture capture, recording or live distribution.

*HDCP content cannot be streamed out.
