

FWD-85X90H

85" BRAVIA 4K HDR Professional Display

Overview

Big, bright, beautiful 4K HDR images and smart connectivity

Take your business communications to the next level with the BRAVIA FWD-85X90H 85" Professional Display. Bright, vibrant 4K HDR images are blended beautifully with easy operation, flexible control and management options plus extensive integration possibilities.

BRAVIA FWD-85X90H features a Full Array LED screen with local dimming for impressively rich, high-contrast pictures that look great from any viewing angle. 4K X-Reality PRO upscales lower-resolution images closer to true 4K quality, giving all your content extra detail and realism.

The clean, minimal styling of BRAVIA keeps your audience focused on what really matters. And for an even richer total AV experience Dolby Atmos delivers pure, immersive sound.

BRAVIA integrates seamlessly with TEOS, Sony's family of productivity-focused workplace management solutions. Achieve more with built-in apps that add extra functionality like automation and meeting room support with no need for extra hardware. Pro Mode gives even more flexibility in business environments, allowing you to customise display settings and

share them easily via multiple displays.

BRAVIA FWD-85X90H also features an embedded HTML5 platform, making it easy to create and display attractive digital signage.

For even greater peace of mind there's the added reassurance of our 3 Years warranty with Repair or if necessary advanced exchange handled by local partner, on premise where possible. You can also choose to extend your support for an additional 2 years.

Features

4K image resolution (3840 x 2160 pixels)

4K offers four times the detail of Full HD, with a resolution of over 8 million pixels bringing extra clarity to corporate display, education and digital signage applications.

More contrast, colour and clarity

Sony's powerful 4K HDR Processor X1™ cleans and refines picture signals, using advanced algorithms to cut noise and boost detail. Even lower-resolution images are upscaled closer to 4K, with lifelike colour and textures for more impactful presentations and signage.

See finer detail

4K X-Reality PRO upscales pictures closer to true 4K quality. Images are sharpened and refined in real time, revealing extra detail from lower-resolution picture sources.

High quality sound that flows around you

X-Balanced Speaker technology brings extra clarity to video soundtracks and other content. Dolby Atmos creates an immersive soundstage that comes from above as well as from the sides, letting you hear objects moving overhead with even more realism.

Wider colour with TRILUMINOS Display

Powered by our X1™ processor, TRILUMINOS Display maps colours from a wider palette, faithfully reproducing a world of more vivid, lifelike hues and tones.

Refined style to match every space

BRAVIA features a slim, contemporary blade design, with a narrow screen bezel that adds an extra touch of refinement to any interior.

Do more with Android TV

Discover a world of apps and online content powered by Android. Use Voice Search to find content easily without typing.

Google Chromecast built-in and Apple Airplay

With Google Chromecast built-in plus support for Apple Airplay, it's easy to mirror content wirelessly from portable devices to enjoy on BRAVIA.

Quick set-up with Pro Mode

Customise and store display settings and features, then copy easily to multiple displays via USB flash memory.

Easily create digital signage

Integrated support for HTML5 makes it easy to produce compelling digital signage. Combine graphics, text, video and live web content to create attractive signage in minutes with no extra hardware or special training.

Versatile remote control

Control BRAVIA remotely – including on/off, input signal select and adjust volume – over IP via RJ45 by web API.

TEOS integration

BRAVIA integrates seamlessly with TEOS, Sony's suite of workspace management applications that orchestrate control of devices and content in boardrooms, meeting areas and public

spaces.

Greater Peace of Mind

There's the added reassurance of our 3 Years warranty with Repair or if necessary advanced exchange handled by local partner, on premise where possible. You can also choose to extend your support for an additional 2 years.
