

HZCU-UHDR50

4K Recording License for HDCU-5000/5500/3500

Overview

The HZCU-UHDR50 enables 4K recording for the HDCU-5000 CCU (camera control unit) with HKCU-REC50 recording option fitted, and for the HDCU-5500/3500 CCU with HKCU-REC55 recording option fitted.

This product is an activation key for pre-installed software.

Features

4K recording inside CCU

Activating the HZCU-UHDR50 license on the HDCU-5000 with HKCU-REC50 and HDCU-5500/3500 with HKCU-REC55 allows direct recording of the live feed in 4K format on the HKCU-REC50/REC55 recording board fitted inside the CCU.

4K and HD simultaneous recording

The CCU with HKCU-REC50/REC55 recording option fitted can record 4K and HD signals simultaneously. In conjunction with the HDC-5500/3500/3100 HDR-capable system cameras, this makes the system ideal for 4K HDR and HD SDR simultaneous live production (SR Live).
