

PCSA-MSA1

Sony Mobile Access software for
PCS-MCS1 Multipoint Control
Unit (MCU) System

Overview

This optional software for the PCS-MCS1 HD Multipoint Control Unit (MCU) System allows up to 16 users to join meetings remotely using their smartphone or tablet while they're on the move.

Please note: Requires installation of PCSA-MPE1/PCSA-MPE2 software (available separately) to allow more than four mobile devices to join multipoint meetings on PCS-MCS1.

Activation key for pre-installed software.
