HKCU-SFP50

## ST 2110 interface kit

Overview

IP System Capability

By installing the Camera Control Units HDCU-3500 / HDCU-5000 / HDCU-5500, compatibility with IP system is achieved. It supports three channels of HD output and one channel of 4K output*, as well as IP input for three channels of HD and one channel of 4K*.

* To handle 4K signals with the HDCU-3500, the installation of the 4K HDR Processor Software "HZCU-UHD35" is required.
