Forward development

The FX6 will support the following features below with ver. 6.00.
(Scheduled to be available from March 2026 or later)

- Addition of home screen (BIG6) for intuitive operation
- Update shooting screen layout
- Addition of HLG Mild in custom shooting mode
- Save paint and look in one scene file to memory card and easily share
- Support for Blackmagic Raw recording*

**We recommend checking with Blackmagic Design regarding the corresponding Blackmagic Design products.*

LUT Library

Look-Up-Tables from Sony and third-parties for on-set monitoring and colour grading.
