

PCSA-RXC1

Full HD upgrade software license
for PCS-XC1 Videoconferencing
System

Overview

This software license upgrades the PCS-XC1 Videoconferencing System from 720p to support Full HD (1080/60p) video for even crisper, more lifelike conferences.

With this optional upgrade, the PCS-XC1 also supports simultaneous 30fps transmission of conference video plus an H.239-compliant desktop screen image, both at Full HD (1920×1080) resolution.

Activation key for pre-installed software.
