

SNCA-AN1

External antenna for SNCA-CFW1 and SNCA-CFW5, wireless LAN cards

Overview

Boosts wireless communication range

An external pole mount directional antenna for increased range and directivity. Designed for exclusive use with Sony network surveillance cameras, when the camera connects via a wireless LAN network using the SNCA-CFW1 LAN card. CF Type IEEE802.11b.

Connects via a wireless LAN network

Connect the antenna to the antenna jack of the SNCA-CFW1 wireless card installed in the network camera.

Features

Connects via a wireless LAN network

Connect the antenna to the antenna jack of the SNCA-CFW1 Wireless Card installed in the Network Camera. The camera can then extend the communication distance.
