

HVBK-1505

Analogue Input Board

Overview

The HVBK-1505 is an analogue input board for use with the HVR-1500 HDV VTR.

A range of analogue interfaces including composite, component, S-Video(Y/C) and two channel analogue audio are provided.

Some HVR-1500s require a firmware update to install the HVBK-1505 board. For details, please contact your nearest Sony office.
