

PDBK-F1500

24p record and playback
hardware key for PDW-HD1500

Overview

Easy software upgrade to allow 24p recording

This PDBK-F1500 key can be fitted to the PDW-HD1500 compact HD recorder to allow for full playback and recording in 24p format, allowing film-like capture results.

Features

Plays MXF files

The key allows 24p, but also enables playback and recording of MXF files using the MPEG IMX and DVCAM codecs.
