

VPL-SX236

3,300 lumens XGA Short Throw
data projector

Overview

Deliver Powerful Presentation with an interactive white board

The wall-mountable short throw projector VPL-SX236 is suitable for using a projector with a white board. A Short Throw distance of 75cm for an 80" screen is useful for limited space in a classroom. The teacher can be free from the projector's glare and able to easily teach their students. By using this projector with an interactive white board the initial costs can be reduced.

This projector has a long-lasting lamp of 10,000 hours. The Unique lamp dimming function by Sony reduces the lamp power usage and lamp power consumption. Its low TCO and usability means the user can enjoy bright images for a much longer time.

VPL-SX236 is a colourful and bright projector. Thanks to the 3LCD Sony "BrightEra™", the picture is colourful and the images are bright. And it also has vivid 2,800 lumen with XGA resolution. These specs are best for a classroom environment. It's easier for all of the students to see with this big screen size.

Smart Connection with PC, Tablet and smartphone is also supported. The wireless presentation capability makes it simple to present files from your PC or smart phone/tablet.

Features

Short throw distance

The projector's short focal length lens allows a 80 inches (diagonal screen size) image to be projected from a distance of only 75cm from the screen. The presenter is not distracted by the projected image, and it's easier for the audience to see the projected image as on screen shadows from the presenter are minimised.

Energy efficient with 10,000 hours long-lasting lamp

High performance lamp technology offers reduced ownership costs plus reduced maintenance, with a lamp replacement time of approx. 10,000 hours (with brightness in low mode).

Advanced energy-saving features

Advanced lamp technology enables a range of energy-saving features. Auto Light Dimming mode saves energy when the projector is left on without being used.

Auto Picture Mode automatically adjusts light output to suit the projected scene. Touching a button on the remote mutes the picture temporarily, dramatically reducing power consumption.

Low TCO

The unique lamp dimming function reduces lamp power usage and lamp power consumption. Its low total cost of ownership (TCO) and usability lets you enjoy bright images for a much longer time.

ECO mode key

Just touch the ECO MODE key on the projector or supplied Remote Commander™ to instantly access energy-saving settings.

3LCD BrightEra™ technology

The efficient 3LCD panel system is enhanced by advanced BrightEra™ technology by Sony. You'll see the difference with

impressively bright, consistent, high resolution images with excellent colour accuracy and impressive reliability.

Bright, clear images with maximum 3,300 lumens colour light output

With a 3,300 lumen maximum light output (in high mode), the VPL-SX236 delivers crisp, bright presentations that can be seen clearly in classrooms or meeting rooms. There's a choice of three brightness modes to suit any environment, from bright daylight to darkened rooms.

Choice of Picture Modes

Six available picture modes ensure optimum image quality with any input source: Dynamic, Standard, Presentation, Blackboard, etc.

Combined with a choice of three brightness modes, users can select the most suitable setting to suit any picture source and presentation environment.

Networked presentations

Project presentations from a networked PC or Mac. Present JPEG, PDF and other files wirelessly from a tablet or smartphone. Up to four users can project PC/Mac images simultaneously, while up to eight users can connect to one projector. The Projector Station for Network Presentation application for Windows/Mac is included.

For tablet/smartphone use, an application is provided by Pixelworks, downloaded from the web. For details visit <http://PWPresenter.pixelworks.com>

Control and management from any networked PC

Projector functions and status can be managed and monitored remotely from any networked PC, using the included Projector Station for Network Control application.

Present wirelessly

Make presentations wirelessly from a portable or handheld device. (Microsoft Windows / Macintosh OS requires Projector Station for Network Presentation application. iOS / Android requires VueMagic application.)

Remote Control for iPhone/iPad/Android phone

Download the free Projector Remote app and control the projector from anywhere in the room with your handheld device, with simple easy-to-read buttons on your phone or tablet.

USB media viewer

Slip in a USB drive and display photos, images and graphics with no PC needed.

USB display for easy one-cable PC connection

Present pictures and audio* from a connected PC or Mac with just one USB cable you don't even need to install a software driver.

* There may be a time lag between video and audio. For low-latency applications it is recommended to use projector's line-in or HDMI-in connection.

Customised input labels

Define your own input labels like 'BD Player', 'PC' and 'Document Camera', making it easier to see on screen what devices are connected and being used.

Stylish blend-in design

The projector's smart, contemporary looks fit discreetly into any classroom, training suite or meeting room.
