

IFU-PN100M

Interactive master pen for VPL-SW525C and VPL-SW535C projectors

Overview

Easily write, draw and interact with classroom presentations

Ideal for education, this replacement 'master' pen lets teachers and students write, draw, sketch and interact with presentations and other files projected from a connected PC. The master pen can also be used by the teacher for mouse-like control of PC functions.

The IFU-PN100M is compatible with Sony VPL-SW500 series ultra short throw projectors that support dual pen interactivity.

Operation requires two AAA dry cell batteries.
