

UNI-ORBC6

Environmental IP66-rated housing supporting .af PoE cameras and Sony sunshield

Overview

The UNI-ORBC6 is an outdoor IP66-rated housing with a feed-through wall/pole mount. It features a dynamic power allocation Power-over-Ethernet (PoE) input, including 30 watt midspan, and a heater and blower.

The UNI-ORBC6 supports .afPoE cameras and Sony sunshield. Its shipping dimensions are 20x12x8.5” LxWxH and it weighs 3.63 kg.

Features

IP66 for robust performance in outdoor environments

In the UNI-ORBC6’s Ingress Protection rating of 66, the first digit means it is ‘dust tight’ and the second means it is protected against heavy jet sprays.

Reliable power from PoE through outdoor 30W midspan

The UNI-ORBC6 delivers reliable performance, utilising Power-over-Ethernet with its outdoor 30 watt midspan included.
