

FWD-55A80L

55" BRAVIA 4K HDR OLED Display with Google TV, including 3 years PrimeSupport

Overview

Bring the cinema home in bright, beautiful detail. This is the Sony BRAVIA A80L OLED TV.

From the latest Hollywood blockbusters to classics, everything on the A80L is incredibly realistic. We've paired our stunning new OLED panel with XR OLED Contrast Pro to boost the colour and contrast like never before, and it's this juxtaposition of rich colour and crisp, true blackness that makes the important elements stand out.

Even if you're watching the darkest of thrillers, you won't miss a thing with our Cognitive Processor XR enhancing pictures in the same way your eyes focus in real-life, so you can see what's lurking in the deep shadows or behind those dazzling lights.

Our Acoustic Surface Audio + technology turns the screen into a speaker, and when sound comes directly from what's happening on-screen, your entire entertainment experience is more immersive.

You can even take your set-up to the next level with the Acoustic Center Sync feature and a compatible Sony soundbar.

The sophisticated design and Metal Flush Surface Bezel will harmonise with any interior, and the 3-way TV stand offers ultimate flexibility.

Our new dedicated Gaming Menu allows you to optimise your gaming performance - quickly. It includes Motion Blur Reduction, Black Equaliser, Crosshair (available in six different styles), and Custom Screen, which allows you to maximise your view when you need to see more detail in every corner of a game and minimise it when you need your eyes to focus on the enemy with laser vision!

You'll access 700,000+ movies and TV episodes from across your streaming services on this Google TV, and everything is organised into topics and genres to suit your personal interests.

You can even save up to 32% more energy with our new BRAVIA range! Our new Eco Dashboard puts all of your eco settings in one place that's intuitive and user-friendly, so you can save energy without hassle or jargon.*

BRAVIA CAM is compatible (sold separately), inviting you to enjoy video chats on the big screen, and more.

Crunchyroll - the largest anime streaming service in the world - is included on the A80L too. With a vast library of anime, manga, and other original content, movies and shows are translated and subtitled or dubbed, so you can enjoy in a variety of languages.

PrimeSupport: Our professional service package

You enjoy all the fantastic picture & sound quality of our consumer TV range, combined with the added peace of mind of our PrimeSupport Professional Service package and after sales support which includes:

- Access to our Elite helpdesk for integrator-focused, knowledgeable technical support
- Advanced Exchange of any faulty products, with technical assistance for swap & install on premise, wherever possible
- 3 years standard cover, with option to extend by additional 2 years

*Default setting versus most energy efficient setting using ECO Dashboard. Consumption difference measured by 85X95L, percentage may differ by model

Features

Wonderful pictures with bright, pure black OLED

See every single detail, even in dazzling light or deep shadow. This OLED TV, powered by Cognitive Processor XR™, maximises picture quality for incredible realism.

Pure blacks. Peak brightness. Remarkable contrast.

XR OLED Contrast Pro boosts colour and contrast in bright areas. With a temperature sensor and high luminance panel, Cognitive Processor XR™ detects screen temperature and precisely controls light.

Extended colour volume, now see every shade and hue whatever you watch

Over a billion colours reproduced with the subtle differences seen in the real world. Powered by our Cognitive Processor XR™, XR Triluminos Pro™ with a wide colour spectrum delivers natural shades in every detail.

Less noise. Less blur. More clarity in every picture.

XR Clear Image reduces noise utilising zone division and dynamic frame analysis, and minimises blur.¹

Intelligent motion processing for smooth, fast-moving action

XR OLED Motion combats blur by detecting and cross analysing key visual elements on successive frames. It creates and inserts extra frames between the originals for smoother, clearer action.

Sound from the centre of the screen, perfectly matching action

The screen vibrates, turning every part of it into a speaker for powerful acoustics that move with the picture. With Acoustic Surface Audio +™, sound comes directly from the right place in the scene. Far more immersive than conventional TVs where sound comes from beneath the screen.

All your entertainment upscaled to 3D surround sound

XR Surround virtually creates surround sound using just the TV speakers for 3D audio without in-ceiling or up-firing speakers. Our BRAVIA XR™ TVs are also compatible with Dolby Atmos®.

What you want to watch all in one place

Browse 700,000+ movies and TV episodes from across your streaming services, all in one place and organised into topics and genres based on what interests you.²

Just say what you want to see - Hands-free Voice Search

Find favourites faster with voice search. Jump right to a show or movie just by saying it or try browsing with a voice search like "find action movies". Just say "Ok Google" to get started.

Auto HDR Tone Mapping

Auto HDR Tone Mapping instantly optimises HDR settings during your PS5™ initial setup. Even in dark shadow and bright highlights, you'll see fine details and true colours.

Auto Genre Picture Mode

BRAVIA™ automatically switches into Game Mode with PS5™ to minimise lag and maximise responsiveness. It switches back to Standard Mode when watching movies for more expressive scenes.³

Game Menu - One place for all your game settings

Never has it been easier to fine-tune your game status, settings and assist functions. All the essentials are at your fingertips for ease and comfort.⁴

Metal Flush Surface, the Art of immersion

Enthralling viewing.

Our premium design with extremely narrow metal bezel focuses your eyes naturally on the picture, not what's around it.

Prestige 3-way stand, stylish and versatile

smart and versatile

A 3-way stand gives you the choice of a standard setting that focuses you on the picture, narrow setting for smaller shelves and soundbar setting for ideal positioning of your sound system.⁵

All your eco in one place

The Eco Dashboard keeps all eco-related settings in one place, making it easy to change them individually or in one go.

Greater peace of Mind

There's the added reassurance of our 3 Years PrimeSupport Professional service package as standard, with access to an elite helpdesk for technical support, advanced product exchange handled by local partner, on premise where possible. You can also choose to extend your support for an additional 2 years.

Notes

¹Features will be available via a future firmware update.

²Some apps, contents and/or features may not be available in all countries. Subject to availability.

User must connect to a Google account to use certain advertised features.

Google TV is the name of this device's software experience and a trademark of Google LLC. Google, YouTube, Chromecast built-in, Google Meet, and other marks are trademarks of Google LLC.

³This function works when Auto Picture Mode is ON.

⁴Some features will be available via a future firmware update.

Available functions may vary depending on model, region, or country.

⁵Actual look may differ depending on TV size.

Specifications

TV System	
TV System (Analog)	B/G,D/K
Tuner Channel Coverage (Analog)	45.25MHz-863.25MHz(Depend on country selection)
