FW-55BZ35F

55" BRAVIA 4K HDR Professional Display

Overview

Optimised display for professional use - display a better, brighter image for your business

This slim, energy-efficient FW-55BZ35F BRAVIA professional display combines bright, beautiful 4K HDR image quality with easy operation, flexible networking/control and extensive integration options.

Ideally suited to professional use, the display takes full advantage of latest consumer television technologies to ensure vibrant, high-brightness 4K images that stand out from the crowd. It's ideal for integration in corporate environments, with Pro mode to simplify installation and allow easy customisation of display settings to suit different applications and environments.

The display's intuitive built-in software platform broadens control and customisation options even further. It's easy to create attractive digital signage, mixing media files and online content with no need for additional player hardware. There's also a wide range of APIs (Application Programming Interface) options to enable remote control/monitoring and integration with external systems.

The FW-55BZ35F is ideal for a wide range of business and educational environments. Applications include meeting room

displays, information displays for lobbies and waiting rooms, digital signage, classroom displays, hotel guest room TV, security camera monitoring, guide displays for showrooms and museums, and information displays for sports stadiums, arenas and live venues.

For even greater peace of mind there's the added reassurance of our 3 Years warranty with Repair or if necessary advanced exchange handled by local partner, on premise where possible. You can also choose to extend your support for an additional 2 years.

Features

Optimised for professional use
The display meets the needs of a wide range of business applications, with flexible installation options plus wired and wireless network connection and serial communication control.

Versatile remote control
Control BRAVIA remotely – including on/off, input signal select and adjust volume – over IP via RJ45 by web API or via RS-232C.

Flexible mounting and installation
The display offers flexible mounting options (vertical, tilt and table-top), with VESA standard mounting for easy integration into a wide range of environments.

Quick set-up with Pro Mode
Customise and store display settings and features, then copy them easily to multiple displays via USB flash memory.
Pro mode enables a detailed customisation for a variety of setting menus, which are available to meet your specific usage requirements.

One-step setting optimised for signage and meeting rooms

This tool instantly completes the necessary settings to optimise the signage or meeting room used.

In-built software platform
Powerful processing capabilities broaden control/customisation options and reduces total ownership costs.

Easily create digital signage
Integrated support for HTML5 makes it easy to produce compelling digital signage, with no extra hardware or prior training needed. Combine graphics, text, 4K video and live web content to create attractive signage in minutes.

Open API support
Compatibility with a wide range of web APIs broadens options for remote control/monitoring and integration with external systems.

4K image resolution (3840 x 2160 pixels)
4K offers four times the detail of Full HD, with a resolution of over 8 million pixels bringing extra clarity to corporate display, education and digital signage applications.

Clearer, more natural 4K images
Images are clearer, smoother and more natural with Sony's 4K X-Reality™ PRO picture processing technology. Advanced noise reduction techniques and a special pattern database ensure that every scene is packed with lifelike detail.

Very high brightness and contrast, ideal for HDR
The high brightness, high contrast panel outshines other displays. It's ideal for presenting 4K HDR (High Dynamic Range) content, revealing subtle detail in the brightest highlights and areas of dark shadow.

Smooth, fluid on-screen action
Motionflow XR 960 ensures smoother, more natural

reproduction of rapidly-moving images on screen.

Greater colours with TRILUMINOS Display
Our unique TRILUMINOS Display technology enhances your audience's viewing with a wider palette of rich, natural-looking colours.

Greater Peace of Mind
There's the added reassurance of our 3 Years warranty with Repair or if necessary advanced exchange handled by local partner, on premise where possible. You can also choose to extend your support for an additional 2 years.

Specifications

General features	
Screen size (diagonal)	55''
Brightness (cd/m²) (*1)	620 cd/m2
Native contrast ratio	1,400:1
Dynamic contrast ratio	Over 1 million
Response time (ms)	5
Display resolution	4K (3840 x 2160)
Compatible with HDR	Yes (HDR10, HLG)
Aspect ratio	16:9
Portrait compatibility	Yes

SONY
