

PWSK-4509

SMPTE ST 2110 interface board for PWS-4500 live server

Overview

The PWSK-4509 is an optional interface board for the PWS-4500 4K/HD live production server. It adds SMPTE ST 2110 connectivity to the server for integration in IP Live production environments, allowing exchange of multiple audio and video channels over IP via 25 Gbps optical fibre (SFP28) Ethernet connection.
