

File Server mode License for FM2

*Please contact your local sales representative for details.

Overview

File Server mode License of FM2(FSL) is an option license of File Manager2.

The license enables standard file IO interface of File Manager2 and it can be usable by local or network applications (SMB).

Note: if you would like to use FSL, you must first install File Manager2 software and activate the File Manager2 license.

This product is an activation key for pre-installed software.

Features

Enables File Server mode of File Manager2

Specifications

Please review File Manager2 manual
