

PCS-A1

Omnidirectional Microphone

Overview

With an omnidirectional (360 degree) pick-up pattern, this high quality mono microphone captures crisp, clear speech from every conference participant in a boardroom or meeting space.

The slim, low-profile microphone sits discreetly on a conference table. For best results, it's recommended to locate meeting participants approximately 0.5-1.5m from the microphone. Acceptable audio quality is also obtained with speakers at a distance of up to 3m.

The PCS-A1 is compatible with a wide range of Sony Video Conferencing systems, including the PCS-XG100, PCS-XG77, PCS-XG80, PCS-XG55, PCS-XL55, PCS-XA55, PCS-XA80 and PCS-G60DP.

Features

Omnidirectional pick-up pattern

The microphone's omnidirectional (360 degree) pick-up pattern evenly captures sound from all directions. It's ideal for ensuring crisp audio in meetings where several people may be seated around a boardroom table.

Wide frequency response

14kHz frequency response ensures excellent speech clarity that's clearly heard by other conference participants.

Wide compatibility with Sony video conference systems

The wired microphone plugs directly into the audio input of a wide range of Sony video conference systems. The PCS-A1 is compatible with most Sony Video Conferencing systems, including the PCS-XG100, PCS-XG77, PCS-XG80, PCS-XG55, PCS-XL55, PCS-XA55, PCS-XA80 and PCS-G60DP.
