

UNI-ORS7C1

Vandal resistant outdoor dome housing

Overview

Clear dome outdoor vandal resistant pendant-mount housing

The Sony UNI-ORS7C1 is a rugged outdoor dome housing designed to accommodate Sony's SNC-RZ50N and SNC-RZ30N cameras. The housing is completely sealed and features both a built-in heater and blower, keeping the camera protected in extreme temperature conditions. Additionally, the UNI-ORS7C1 has a top body forged from cast aluminium and a bottom dome produced from a highly durable polycarbonate. This makes the unit virtually impervious to the outside environment, including vandalism. A built-in adapter supplies power to both the camera and housing. The lower dome is clear for maximum light transmission.

Construction

Cast aluminium top. Clear Polycarbonate lower dome.

Features

Weather protection

Water-tight cable entry. Built-in heater and blower. Water-tight cable entry.

Mounting

Pendant-mount.

Power

24 VAC to 12 VDC camera power supply.

Compatibility

Designed for the SNC-RX550N and SNC-RZ25N cameras.
