

CFV-E30D

3D Eye Shield

Overview

This pack contains 15x disposable 3D polarising eye shields. Each shield is intended for use with the CFV-B100 eye shield frame (frame not included - available separately).

The disposable eye shields are intended for use by surgeons and nursing staff in the Operation Room viewing images on the Sony Medical Monitor.

The 3D circular polarising disposable eye shield fits into the shield frame that is light and comfortable to wear for extended periods. Wearing the eye shield and frame, healthcare professionals are protected from blood splashes, body fluids and typically encountered in the Operation Room during clinical procedures.

The 3D eye shield is compatible with the BKM-30GM and BKM-31GM (can use instead of 30/31GM).

Specifications

Specifications

Operating Temperature	0 °C to 40 °C
Operating Humidity	30% to 85%

Storage/Transport Temperature	-20 °C to +60 °C
Storage/Transport Humidity	20% to 90%
Operating/Storage/Transport Pressure	700 hPa to 1060 hPa
Dimensions (W x H x D) *1	235 x 77 mm (3D shield) (15) 9 3/8 x 3 1/8 inched (3D shield) (15)
Mass	Approx 7 g (3D shield) (15) Approx 0.25 oz (3D shield) (15)
