

IFU-PN100S

Interactive sub pen for VPL-SW525C and VPL-SW535C projectors.

Overview

Easily write, draw and interact with classroom presentations

Ideal for education, this replacement pen lets students write, draw, sketch and interact with presentations and other files projected from a connected PC.

The IFU-PN100S is compatible with Sony VPL-SW500 series ultra short throw projectors that support dual pen interactivity. Full PC control requires the IFU-PN100M 'master' pen.

Operation requires two AAA dry cell batteries.
