

UNI-ID7C3

Clear indoor recessed ceiling housing for SNC-RX Series, SNC-RZ25N, RZ30N and RZ50N cameras

Overview

Discreet protection for indoor security monitoring

The Sony UNI-ID7C3 7" Indoor Recessed Ceiling Housing is a clear dome that offers added protection for SNC Series PTZ Network Indoor Cameras. It comes with a steel top made from 18 and 20-gauge steel, which can be fixed to ceilings to protect your surveillance cameras. It leaves just the lower part of the clear dome visible and offers discreet, durable protection for security monitoring.

Durable clear bubble

The UNI-ID7C3 uses an optically transparent, aspheric polycarbonate lower dome to offer durable protection for your cameras. It measures 7 inches for easy installation and servicing.

Features

No electronics

This clear dome has been designed to use interface wiring only, such as Ethernet or I/O power.
