

SEL075UWC

Ultra Wide Lens Converter for SEL28F20

Overview

High quality converter achieves 21mm focal length with FE 28mm F2 lens

This dedicated ultra-wide converter for the FE 28mm F2 lens (available separately) produces an even wider 21mm focal length. It's compatible with the SNC-VB770 Ultra High Sensitivity 4K Network Camera and UMC-S3C Ultra High Sensitivity 4K Video Camera.

High resolution is maintained throughout the image area from infinity down to the closest focusing distance, without compromising the lens's imaging quality.
