

YT-ICB600

In-Ceiling Bracket designed for use with network and analogue minidome security cameras

Overview

The YT-ICB600 is an in-ceiling bracket designed for use with network and analogue minidome security cameras. It is used when the body of the camera is embedded in the ceiling, or with gypsum or plaster boards, where the quality of the material used in the ceiling makes it difficult for ordinary screws to hold.

Specifications
