

PCSA-WXC1

Wi-Fi upgrade for PCS-XC1
Videoconferencing System

Overview

This optional software license and wifi dongle upgrades the PCS-XC1 Videoconferencing System to enable easy 'go anywhere' mobile video conferencing via wireless LAN (Wi-Fi).

Wi-Fi operation also requires addition of attachment of IFU-WLM3 USB wireless LAN module (provided as part of PCSA-WXC1 upgrade option).

Activation key for pre-installed software.
