

FWD-85Z9G/T

85" BRAVIA MASTER Series 8K, Ultra HD, HDR, Full Array LED Professional Display

Overview

Unleash the extraordinary visual power of 8K HDR images

Give customers, partners and visitors an unparalleled viewing experience on an impressive scale. The FWD-85Z9G/T 85" BRAVIA MASTER Series Professional Display partners exquisite 8K HDR images with easy operation, flexible networking/control and extensive integration options.

Optimised for professional display applications, the BRAVIA MASTER Series harnesses the full power of cutting-edge Sony picture technologies. Backlight Master Drive full-array LED technology and our X1™ Ultimate picture processor are teamed with 8K X-Reality™ PRO to ensure vibrant high-contrast 8K HDR images, bursting with fine detail, rich colour and spectacular contrast.

8K big-screen pictures are matched by the powerfully minimalist design of the FWD-85Z9G/T that's sure to impress in any setting. Picture and audio are in perfect harmony with Sony's Acoustic Multi-Audio™ system and Sound-from-Picture Reality™ for a captivating audio-visual performance.

With advanced control, Pro Mode, optional interactive compatibility and an embedded HTML5 platform, it makes it easy to create attractive digital signage so you always present a clear image.

Enrich your audience's display experience with seamless TEOS integration and a choice of built-in solutions to add extra functionality, from meeting room support to automation, with no need for any external devices or players.

For even greater peace of mind there's the added reassurance of our 3 Year Advanced Exchange PrimeSupport service. If there's a problem with your display, we'll offer a free, brand new replacement product rather than repair included as standard. You can also choose to extend your service by 2 additional years.

Features

8K image resolution (7680 × 4320 pixels)

8K offers 16 times the detail of Full HD, with an extraordinary resolution of over 33 million pixels bringing extra clarity to corporate display, education and digital signage applications.

Recapture hidden detail in 8K

Unique to Sony, 8K X-Reality™ PRO upscales images closer to true 8K quality using our exclusive database. Pictures are sharpened and refined in real time to reveal hard-to-see details.

Spectacularly lifelike 8K HDR images

Our most powerful ever Picture Processor X1™ Ultimate features Object-based Super Resolution, Object-based HDR remaster and Super Bit Mapping™ 8K HDR for exceptionally detailed, realistic pictures with rich colour and ultra-low noise.

Backlight Master Drive

This full-array LED backlight technology combines an ultra-dense LED structure with a unique local dimming algorithm and advanced optical design. Powered by the Picture Processor X1™ Ultimate, it delivers incredibly deep black, dazzling lights and more vibrant colour.

Experience greater contrast

Offering up to twenty times the contrast of conventional LED TVs, 8K X-tended Dynamic Range™ PRO unlocks details in shadow and highlights, ensuring dark scenes are darker and bright scenes brighter.

More colour with TRILUMINOS Display

TRILUMINOS Display maps colours from a wider palette, faithfully reproducing a world of richer, more lifelike hues and tones.

Vibrant colour from any angle

X-Wide Angle technology ensures that faithful shades of vibrant colour can be enjoyed accurately from any viewing angle.

Every moment smooth and clear

X-Motion Clarity™ technology keeps fast on-screen action smooth and clear. Moving images are precisely controlled to minimise blur. Even during high speed scenes, pictures stay true with no loss in brightness.

Optimised for professional use

The FWD-85Z9G/T meets the needs of today's business and educational environments, with flexible installation options plus wired or wireless network connection and serial communication control.

TEOS integration

BRAVIA integrates seamlessly with TEOS, Sony's suite of workspace management applications that orchestrate control of devices and content in boardrooms, meeting areas and public spaces

Easily create digital signage

Integrated support for HTML5 makes it easy to produce compelling digital signage, with no extra hardware or prior training needed. Combine graphics, text, video and live web content to create attractive signage in minutes.

Pictures and sound in perfect harmony

The innovative Acoustic Multi-Audio™ system includes four front facing speakers for truer, more authentic sound. Sound-from-Picture Reality™ aligns on-screen action and audio for a more immersive experience.

Centre Speaker Mode

Use BRAVIA as a centre speaker, delivering exceptional audio clarity in conjunction with additional speaker systems.

Do more with Android TV

Discover a world of apps and online content powered by Android TV. Use Voice Search to find content easily with no typing.

Quick set-up with Pro Mode

Customise and store display settings and features, then copy them easily to multiple displays via USB flash memory.

Greater peace of mind

There's extra reassurance with our 3 Year Advanced Exchange PrimeSupport service that's included as standard. If there's a fault with your BRAVIA Professional Display, we'll provide a replacement unit at no extra charge to keep you up and running.
