

PVMK-RX24

Rack Mounting Bracket for PVM-X2400

Overview

Rack-mounting bracket for PVM-X2400 24-inch 4K HDR TRIMASTER high grade picture monitor

The PVMK-RX24 is a rack-mounting bracket specifically designed for mounting the PVM-X2400 high grade picture monitor directly on a 19-inch EIA standard rack.

Secure mounting in 19-inch EIA standard rack

9U Height design* for easy monitoring in operations room and machine rooms.

*The maximum width of the PVM-X2400 is 568mm. When you install multiple racks in parallel, more than 570mm width is required as an installation space for each rack.

The PVMK-RX24 has a function to project the monitor forward from left and right mounting surfaces of a rack as there are various cosmetic designs of 19" EIA standard racks in the market. The depths of the projection are selectable from 10mm, 23mm, 36mm and 69mm.

Features

Metal mounting bracket

Designed to attach to PVM-X2400 monitor to mount directly in a 19-inch EIA standard rack.
