

CFV-B100

Shield Frame

Overview

This wearable shield frame is intended for use with 3D/2D eye shield and accessories (eye shield is not included with this frame and is available separately).

The disposable eye shields are intended for use by surgeons and nursing staff in the Operation Room viewing images on the Sony Medical Monitor.

The eye shield fits into the CFV-B100 shield frame that is light and comfortable to wear for extended periods. Wearing the eye shield and frame, healthcare professionals are protected from blood splashes, body fluids typically encountered in the Operation Room during clinical procedures.
