

PWSK-4508

12G-SDI interface board for PWS-4500

Overview

Integrate 4K UHD signals into existing SDI infrastructures

The PWSK-4508 is a 12g-SDI interface board for the next-generation PWS-4500 next- 4K/HD live production server. Installing the 12G-SDI interface board allows an easy integration of 4K/UHD signals into an existing SDI infrastructure.
