

## SR-1TS25

SRMemory Card, 1 TB capacity and 2.5 Gbps guaranteed write speed

### Overview

The SR-1TS25 SRMemory Card is an ultra high-speed, high-capacity, and high-reliability flash memory media for SRMASTER series products, ideal for demanding professional applications including 3D production, high-frame-rate digital cinematography, and high-resolution digital cinematography.

The SR-1TS25 SRMemory Card has a capacity of 1 TB and guaranteed write speed of 2.5 Gbps.

SRMemory is unique with its combination of capacity, sustained data throughput, security and portability. It opens up completely new ways for end-users to work. SRMemory Cards work with an exciting line-up of recording devices and cameras, including the F65 Camera and SR-R4 combination up to 25 frames per second, SR-R1000 Memory Storage Unit, SRPC-5 and SR-PC4 Data Transfer Units, as well as the SR-R1 Portable Memory Recorder. The cards can record and replay two streams simultaneously.

### Features

#### **Massive 1 TB data capacity**

The SR-1TS25 SRMemory Card has a capacity of 1 TB, providing extremely high recording times. This provides easy management of media on-set, even when shooting at high data rates. It is possible to record 5 hours at 1080/25P on to one SR-1TS25 1 TB SRMemory Card, or one 3D stream from a whole football match.

This provides easy management of media on-set, even when shooting at high data rates. The long record duration is ideal for sports events.

### **Exceptional transfer speeds – up to 2.5 Gbps**

The SR-1TS25 SRMemory Card offers exceptional transfer speeds – up to 2.5 Gbps write speed for faster transfer of data in post production and for ultra-fast cloning of data on-set or at a live event. It is possible to record two camera streams on to a single card at a live event.

### **High Data Security and Reliability**

The SR-1TS25 SRMemory Card features advanced error correction and concealment technologies, providing high reliability and data security for peace-of-mind.

### **Compact Removable Media**

The SR-1TS25 SRMemory Cards are compact, highly portable and removable media – 105 x 60 x 9.5 mm, approx. 100 g. They remove the need to transfer files from the server HDD after an event is finished.
