

UNI-ORS7T1W

Vandal resistant outdoor dome housing

Overview

Tinted bubble vandal resistant dome housing

The Sony UNI-ORS7T1 7-inch Vandal-Resistant Outdoor Housing (Tinted) is designed to offer extra protection to the Sony's RZ series Dome Cameras. The upper part of the housing is constructed of durable cast aluminium while the lower dome is made of thermoplastic polycarbonate material. Designed for discreet surveillance, the housing is equipped with a tinted lower dome that helps conceal the direction of the camera without interfering with the camera's view. An integrated heater and blower system shields the camera in low temperatures and prevents the lower bubble from fogging up in high humidity.

Rugged vandal-resistant construction

Upper body of the 7-inch (177.8 mm) housing is made of durable cast aluminium Dome shell is constructed of an injection moulded 0.118" (3 mm) thick, optically clear thermoplastic polycarbonate. Strong cast aluminium top and trim ring.

Features

Extreme temperatures

24-hour fan operation for effective heating and condensation protection. Equipped with a 24 VAC input blower and a thermostatically controlled 50 W heater that turns on and off at 50°F (10°C) and 80°F (25°C) respectively.

Power

24 VAC input, integrated 12 VDC power supply for camera power.

Compatibility

Designed for SNC-RZ50 Outdoor Dome Cameras. 1.5" NPT quick connect coupling.
