

BRAVIA BZ35J Series

Standard 4K Ultra HD HDR
Professional Displays with high
brightness and superb picture
quality in 43” and 50” screen
sizes

Overview

Bright, arresting visuals and easy content sharing

Slim, energy-efficient BRAVIA BZ35J creates extra-bright, sumptuously detailed 4K HDR pictures with an extra-wide viewing angle – adding impact to signage and all your visual communications in business, retail, educational and public environments. It's tailor-made for business with reliable 24/7 operation, productivity-focused apps on board, easy customization and simple content sharing.

Available in screen sizes from 43”-50”, BRAVIA BZ35J Series offers high screen brightness up to 570 nits, ensuring punchy, high-contrast visuals that can always be seen clearly, even in well-lit rooms and public spaces.

BRAVIA BZ35J Series brings greater clarity, color and contrast to corporate meetings, presentations and digital signage. Advanced Sony picture processing technologies add even more impact and realism to videos, photos, charts, graphics and text. 4K X-Reality PRO upscales lower-resolution picture sources closer to true 4K quality, sharpening and refining in real time to reveal extra detail. The panel's extra-wide viewing angle ensures that everyone in the room can enjoy clear, bright images wherever they're positioned.

Features

Exquisitely rich, natural color

Sony's power-packed 4K HDR Processor X1 and TRILUMINOS PRO technology ensure that BRAVIA BZ35J Series faithfully reproduces a phenomenal range of rich, true-to-life colors.

Fluid, blur-free movement

Motionflow XR technology ensures that on-screen content always remains smooth, clear and blur-free – even with fast-moving video scenes.

Smart apps all ready for business

BRAVIA BZ35J Series helps your business move forward with in-built apps and solutions including screen mirroring, digital signage and meeting room management. There are even more smart apps to explore at Google Play Store.

Round the Clock Reliability

Because business never sleeps. BRAVIA BZ35J Series is ruggedly engineered for reliable 24/7 operation – ideal for applications like signage where your message always needs to be clearly visible.

Stunning images in any orientation

BRAVIA fits right in with your business needs. The display can be mounted horizontally (landscape) or vertically (portrait) to suit any environment, from corporate boardrooms to digital signage. Tilt your BRAVIA to help capture your audience's attention*.

*The tilt degree varies by model

Quick set-up

Pro Mode lets you customize and store display settings to suit different environments, then copy them easily to multiple displays via USB flash memory. One Step Setting optimizes picture and network settings for meeting rooms and signage applications at the touch of a button.

Signage made simple

In-built support for HTML5 makes it easy to display interactive signage content on BRAVIA BZ35J Series without the need for a dedicated set-top box, media player or PC.

With BRAVIA, sustainability in every scene

With growing demand for ever larger TVs and Professional Displays, there is also the risk of greater resource and energy use. However, Sony’s sustainability commitments are realizing efficiency gains from product development right through to watching TV and viewing displays.

24/7

Because business never sleeps: BRAVIA is engineered for dependable 24/7 operation in the most challenging corporate and commercial environments.

Energy Saving:

BRAVIA incorporates advanced energy saving features to reduce power consumption and keep running costs in check.

Easy integration

BRAVIA BZ30J Series is made for today's connected world. There’s seamless support for today’s leading automation and control platforms, while open APIs simplify integration with a wide range of solutions from other vendors.
