

BVML-HE171

HDR monitoring license for BVM-E171 TRIMASTER EL™ OLED critical reference monitor

Overview

Permanent software license allows BVM-E171* to support fantastic HDR images

The BVML-HE171 HDR license allows the BVM-E171 TRIMASTER EL™ OLED critical reference monitor to support HDR images with a wide color gamut, and OLED black pictures with pixel dimming and great off-axis performance. The HDR license supports EOTF 2.2, 2.4, 2.6 CRT, S-Log3(HDR), S-Log3(Live HDR), S-Log2(HDR), ITU-R BT.2100(HLG), SMPTE ST2084, 2.4(HDR).

* The BVM-E171 monitor must be updated to V1.1 or later first. The HDR features are activated via the BKM-17R monitor control unit.

Fantastic HDR performance

The BVML-HE171 HDR license allows your monitor BVM-E171 V1.1 or later to display fantastic HDR images with a wide color gamut, and OLED black pictures with pixel dimming and great off-axis performance.

Activate with BKM-17R monitor control unit

The HDR features are activated via the BKM-17R monitor control unit. Order the purchase key for the BVML-HE171 from your Sony sales representative, receive your activation (install) key from the Sony ULMS (Upgrade and License Management Suite) <https://ulms.sony.net/>, then download and save the license to USB Memory. You can then insert the USB Memory to the BKM-

17R to activate HDR features of your BVM-E171 with V1.1 or later.

Activation key for pre-installed software.

Features
