

HKC-WL50

Wireless transmission adaptor
for HDC-5500 and HDC-3500

Overview

The HKC-WL50 wireless transmission adaptor is a dedicated side panel option for HDC-5500 and HDC-3500.

*Dedicated battery mount adaptor is included.

Features

Compact body and balanced weight

The HKC-WL50 enables wireless transmission capability inside the camera body. The compact body and well-balanced design reduce the burden on camera operators during long shoots and operation in the field.

4K wireless transmission

The HDC-5500 can output 4K wireless signal and HDC-3500 is also capable of 4K wireless output when the HKC-WL50 and 4K software license HZC-UHD50 are installed.

Seamless integration with wireless solution vendors

The HKC-WL50 is already integrated with several third-party wireless solutions. Please contact your sales representative for more information.

Easy side panel exchange

The HKC-WL50 is one of several side panel options for HDC-5500 and HDC-3500. It can be exchanged for another side panel such

as fiber or triax transmission.
