

SU-600MD

Stand specifically designed for use with Sony LCD flat panel medical monitors

Overview

The SU-600MD monitor stand is an optional accessory for use in healthcare environments. It's designed specifically for use with Sony LCD flat panel medical monitors.

The stylish monitor stand can be fixed to a horizontal surface or desk, or to a compatible medical device or system.

Monitor angle can be easily adjusted vertically over a -10 degree (downward) to +20 degree (upward) range by holding the top and bottom of the monitor and tilting.

The SU-600MD conforms to Video Electronics Standards Association (VESA) standards.
